

El Alcalde de Sevilla

*To the participants of the
Future Horizons
International Electronics Forum*

Seville July 2011

Dear Sirs,

As Mayor of Seville, on behalf of the Municipal Corporation and all Sevillian citizens, I would like to pass on our most sincere and strong support, in order to host in October 5th - 7th to the participants of the Future Horizons International Electronics Forum, to be held in Hotel Ayre Sevilla.

Our city combines its privilege location and ideal weather conditions, a complete infrastructure of services and an excellent communication network which together with its cultural richness, a marvelous gastronomic offer and multiple entertainment options, make Seville a perfect meeting point to become the host city for this important conference.

It would be an honor and a pleasure for the institution I represent, in particular, and generally for Sevillian citizens, to welcome this event, with the desire and the belief that participants' stay will be unforgettable. We will spare no efforts to do so.

Seville looks forward to welcome you.

Juan Ignacio Zoido Álvarez
