This Forum is essential to all those charged with shaping future company directions or industry positions. In addition, the Forum proceedings and CD-ROM will provide a valuable resource for future reference and substantiating positions taken. The popular Wednesday start and Friday finish make Future Horizons' Forum the most productive and cost effective meeting of its kind.

International Electronics 2008

Future Horizons, Europe's leading semiconductor industry analyst, is proud to present its 17th Annual International Electronics Forum - "*International Electronics 2008*" - from May 7-9, 2008. This year's Forum, held under the auspices of Dubai Silicon Oasis Authority (DSOA), takes place at the Madinat Jumeirah, Dubai, UAE. Registration starts at 5:30 pm on Wednesday May 7, followed by a cocktail welcome reception and Gala Dinner hosted by DSOA. The formal presentations take place in the Madinat Conference Hall Joharah Ballroom from 8:30 am on Thursday May 8 through to 1:00 pm on Friday, May 9 followed by the Grande Finale Forum Buffet lunch. As always, the traditional Thursday night Fiesta at the Bab Al Shams promises to be the social highlight of the Forum.

About The Forum

Future Horizons' Forum is widely considered the most important networking and business event in the global semiconductor calendar, as demonstrated by the seniority and stature of both delegates and speakers. Past experience has proved that real decisions are made as a result of discussions held at the Forum, and this year's event promises to be no exception. The Forum is a proven industry catalyst, offering a unique opportunity to influence the future direction of the global electronics industry development. Hear from, and debate issues with, the world's leading experts, plus the latest industry analysis from Future Horizons. Attendance at the Forum will ensure your company is better prepared to exploit the opportunities that lie ahead ... *Can You Really Afford NOT To Be There?*

Who Should Attend

An International Forum To Meet New Contacts, Share Experiences, Explore Ideas, & Influence Industry Development Targeted For Senior Executives In:

- Executive Management
- Strategic Marketing & Planning
- Market Research & Marketing
- Engineering & Design
- Purchasing & Acquisition
- Project Management
- Investment & Banking
- Finance & Administration
- Sales & Distribution Channels
- Government Organisations
- Business & Technical Press

In today's fast moving world it is vital to stay well informed. Future Horizons' Annual International Electronics Forum is designed to meet this need. Whether a seasoned veteran or industry newcomer, this Forum is invaluable to executives and professionals from the semiconductor, electronics and related industries charged with responsibility for design, production, investment, strategic planning, marketing, business development, distribution, finance and purchasing. The huge success of previous Future Horizons' Forums has earned this event an enviable international reputation at the CEO, President, Business Development and Managing Director level. Regular attendees comprise senior executives spanning the full spectrum of the industry, including microelectronics companies; semiconductor equipment and materials firms; electronic equipment and systems manufacturers; government and industry officials; investment organisations and the press.

Spouse Programme & Extended Stay Option

Spouses are especially welcome to accompany Forum delegates, and are cordially invited to attend all of the Forum social functions. In addition, a special Spouse Programme has been arranged for the Thursday, with the emphasis on relaxation, enjoyment and conviviality. The programme combines selected sightseeing opportunities with shopping and other items of interest, with the special spouse lunch traditionally the high spot of the day. The Friday lunchtime finish allows delegates the opportunity to take advantage of the reduced Forum hotel rate to spend the weekend in Dubai at the end of the Forum, with the reduced rates also applying for early arrivals too.

Forum Fees - Please use the special Forum registration form (Prepayment Required)

Reduced Fees For Early Bird Registrations (Payment received prior to March 01, 2008)

Discounts Available For Three Or More Delegates From The Same Firm (Must register simultaneously)

Unable To Attend? Forum Proceedings Available Separately (Binder plus CD-ROM)

Forum Programme - Please check our website @ www.futurehorizons.com for the latest details

A proven business catalyst, this Forum is the world's premier networking and visionary event for defining future global electronics industry directions. Past delegate quotation: *"This Forum is a 'must do' for every industry executive's calendar...I can do serious business here."* Now in its 17th year, the 2008 Forum theme focuses on the current evolutionary trends in the global electronics ecosystem. As the IC celebrates its 50th birthday, significant changes are underway in the in the structure and ecosystem, with the only clear certainty being that the outcome will again be different. Some companies will prosper, whilst other will decline - there seem no end in sight to the "make lunch or be lunch" industry ethos. This decision maker's Forum is invaluable to executives from all sectors of the electronics industry:

For large firms - it allows them to meet the smaller 'hot-bed of innovation' companies

For start ups & SMEs - it offers a way in to promote their trailblazing ideas

For investors - it provides insight into the future killer opportunities

For government / academia - it offers potential partnerships and investments

Join key players, network with industry peers, assess the market and gain valuable insights to help support your strategic business decisions and long-term customer relationships ... *there is no better way to stay well informed*

Speakers Include - In alphabetical company order (Please Check Our Website For The Latest Programme Details)

Mark Pinto, Senior VP & Chief Technology Officer Applied Materials (USA)	Shankar Pennathur, VP Operations & Manufacturing Oxford Semiconductor (USA)
Waguih Ishak, Division Vice President & Director Corning (USA)	Kees van der Klauw, SVP Technology & Development Philips Consumer Lifestyle (Europe)
Susumu Kohyama, President & Chief Executive Officer Covalent Materials (Japan)	Valentin von Tils, VP Platform Development ASICs Robert Bosch (Europe)
